

Heading level 1 - document title

Heading level 2 - section

Heading level 3 - subsection

Heading level 4 - sub-subsection

Heading level 5

Heading level 6

Inline runs: **bold via strong**, **bold via b**, *italic via em*, *italic via i* (renders upright - no slant font yet), underlined, ~~struck through~~, ~~deleted text~~, and small text inline. `code runs` share the embedded sans-serif font.

This paragraph applies letter-spacing: 0.5px, which widens every run proportionally to its character count.

This paragraph uses line-height: 1.15 for a compact two-line block that stays tight: first line of the compact paragraph, second line of the compact paragraph.

Blockquote: the quarterly results exceeded guidance for the fourth consecutive period, driven by the services segment. - CEO commentary

Hierarchy of headings feeds the PDF outline: every h1–h6 element above becomes an outline entry, in document order, with the heading level preserved.
