

Flex cyclic percentage basis

Definite row - 50% / 50% basis

Container width 240pt (definite); each item flex-basis 50%.

Left 50%	Right 50%
----------	-----------

Definite column - 40% / 60% basis

Container height 100pt (definite); % basis against content height.

Top 40%
Bottom 60%

Indefinite column — cyclic % → auto

height:auto; flex-basis:50% acts as content-sized (not zero).

Percent basis (cyclic → auto)
Auto basis sibling
