

Float-inside-td quality sample

FLOAT-38	Letterhead float precedes an in-flow summary table. Policy: the table FLOAT-TABLE-CLEAR-ABOVE clears above the float (no shrink-beside).	
ID	Cell text wraps beside the floated icon. Marker FLOAT-INSIDE-TD-WRAP anchors regression extraction for the golden corpus. After clear, content resumes full cell width - FLOAT-INSIDE-TD-CLEAR .	Neighbor cell uses FLOAT-TD-NEIGHBOR-TOP with vertical-align:top so row packing stays report-friendly.
