

Float-inside-td quality sample

FLOAT-38

Letterhead float precedes an in-flow summary table. Policy: the table **FLOAT-TABLE-CLEARs-BELOW** clears below the float (no shrink-beside).

ID Cell text wraps beside the floated icon. Marker FLOAT-INSIDE-TD-WRAP anchors regression extraction for the golden corpus. After clear, content resumes full cell width - FLOAT-INSIDE-TD-CLEAR.	Neighbor cell uses FLOAT-TD-NEIGHBOR-TOP with vertical-align:top so row packing stays report-friendly.
